EDUCATION

B.Tech. in Computer Science & Engineering — Sreenidhi University, Hyderabad *2024 – 2028*

- CGPA: 8.76 / 10 | Semester 1: 9.65 / 10

Class XII — Narayana Jr. College ECIL, Hyderabad (TSBIE) *2024*

- Percentage: 92.70%

Class X — K.V. Picket, Hyderabad (CBSE) *2022*

- Percentage: 72.20%

LEADERSHIP & EXPERIENCE

Student Placement Co-ordinator — Sreenidhi University *Jan 2026 – Present*

Public Relations, Outreach & Event Management

- Coordinated 150+ student events and managed a 25-member SPC team, handling end-to-end logistics, scheduling, volunteer management, and campus communication
- Conducted outreach to industry professionals to invite speakers for technical events; coordinated Geek Talk sessions with experts from Oracle (Sydney), engaging 100+ students
- Managed cross-functional communication between speakers, organizers, and students to ensure seamless event execution and stakeholder satisfaction

INTERNSHIP

Social Intern — Zilla Parishad High School Rampally *Jul – Aug 2025*

- Delivered interactive learning sessions and awareness programs; organized student engagement activities collaborating with teachers and fellow interns
- Supported academic guidance initiatives and helped improve student participation through structured outreach programs

PROJECTS

Portfolio Website — HTML, CSS, JavaScript, Netlify *2025*

- Developed a responsive multi-page portfolio website with clean UI/UX design and deployed on Netlify for public access
- Live: hanuman-narayana-webtechnologies.netlify.app

Smart Grid Energy Analytics — Python, PostgreSQL, SQLAlchemy *2026*

- Engineered an end-to-end ETL pipeline following CRISP-ML(Q) methodology; performed data profiling, cleansing, transformation, and warehouse loading
- Integrated PostgreSQL with Python via SQLAlchemy; documented all phases for full reproducibility

Student Segregation System — React.js, Tailwind CSS *2025*

- Built a responsive web app for balanced classroom allocation based on academic performance metrics; architected for future MongoDB integration

OpenCV Experiments — Computer Vision Portfolio *2026*

- Implemented 20+ image processing techniques: thresholding, morphological operations, color space conversion, blending, and brightness/contrast enhancement

TECHNICAL SKILLS

Languages: Python, C++, JavaScript, SQL, Java (Basics)
Web & Databases: React.js, HTML5, CSS3, Tailwind CSS, PostgreSQL, MongoDB (Basics)
Libraries: OpenCV, Pandas, NumPy, Matplotlib,seaborn
Tools: Git, GitHub, VS Code, Google Colab, Jupyter Notebook

CERTIFICATIONS & ACHIEVEMENTS

- Generative AI & Prompt Engineering — Certification
- Bronze Medal — INEX GOA Student Innovation Event: recognized for problem-solving, teamwork, and technical thinking
- Being Zero Java Bootcamp — Core Java, OOP, Data Structures & Algorithms
- LeetCode Contest Rating: 1414 | 12 Problems Solved (7 Easy, 5 Medium) | Languages: Python, C++
- CodeChef Rating: 1272 (Division 4)
